

**Oct 1 2006:  
Congresswoman Zoe Lofgren supports  
Winning Projects at CET with an Earmark  
from the U.S. Department of Labor.**

With the support and sponsorship of Congresswoman Zoe Lofgren, thirty-four young men and women were trained for occupations in the medical field. Investing Earmark funds in our youth yields great returns and prevents crisis for parents, schools, society and the young people themselves. Twenty-six of the thirty-four youth are now working in clinics and hospitals, pursuing a job with a career ladder and serving other human beings. Everyone wins! Representative Zoe Lofgren, CET thanks you!
